

The McCraw **Safe&Secure Propane** program offers you control over yearly propane costs and helps manage your heating budget during those *cold* winter months.

*Before **Safe&Secure Propane**, you had two poor choices for staying warm and comfortable. . .*

PAY UP FRONT

Pay a huge lump sum in the summer for your entire winter propane needs and know your locked-in price. This option is unaffordable for most.

OR

PAY AS YOU GO

Pay for each delivery as it is made at potentially higher winter prices, leaving you to deal with large propane bills during the holiday season.

Our **Safe&Secure Propane program combines the benefits of each, giving you the best of both worlds.**

It locks in your propane price for the winter season to eliminate potential price spikes.

It averages your billing over eleven months to avoid those big winter heating bills.

Your winter heating bill doesn't break the bank with large lump sum purchases.

***Safe&Secure Propane** is great for smoothing out household expenses. Great also for those on a fixed income!*

Here's How It Works...

McCraw Propane customers can enjoy our exclusive Safe & Secure Propane program to take the bite out of high winter propane bills. We work with you to estimate your propane usage for the 12 months starting June 1, and we divide the estimate into 11 equal monthly payments. We send you monthly statements to help you track your propane costs and to ensure that your **Safe&Secure** payment is keeping up with your propane deliveries.

We use the month of May to reconcile our accounts, and if you have paid too much when compared to your actual

deliveries, you can either roll the credit to the next year, or we will refund the overpayment. If you've paid too little to cover your actual deliveries, the balance is due to us by May 31.

To participate in the **Safe&Secure Propane** program, you need to have an account with McCraw in good standing with no balance due as of June 1. You also need to enroll in our auto fill program which allows us to schedule your deliveries. If you don't have an account with McCraw, set-up is quick and easy, and just call your local McCraw Propane office for more information.

Example Calculation (Assuming \$50/Month **Safe&Secure Propane** Payment)

	Account Balance Start of Month*	- Customer Payments	+ Propane Deliveries	= Account Balance End of Month*
June	\$0	\$50	—	(\$50)
July	(\$50)	\$50	—	(\$100)
August	(\$100)	\$50	\$100	(\$50)
September	(\$50)	\$50	—	(\$100)
October	(\$100)	\$50	\$150	\$0
November	\$0	\$50	—	(\$50)
December	(\$50)	\$50	—	(\$100)
January	(\$100)	\$50	\$150	\$0
February	\$0	\$50	—	(\$50)
March	(\$50)	\$50	\$100	\$0
April	\$0	\$50	—	(\$50)
Totals		\$550	\$500	
May	\$50 credit on the account. Either mail check to customer or credit is rolled forward to the Safe&Secure Propane program for the next year.			

*Negative numbers represent credit balances
